PACIFIC
ANCIENT ENERGY

INTRODUCTION

WIND TURBINE AND SOLAR SOLUTIONS

PACIFIC ANCIENT ENERGY has been founded in 2007 with country office located in Gujranwala near Lahore the heart center of Pakistan. We have regional offices in Islamabad, Peshawar, Lahore, Quetta and Karachi. Our overseas office in France provides a link with leading specialist European manufacturers and supplies of solar photovoltaic, solar thermal systems and wind mills etc.

Our aim is to help to create a cleaner and greener Pakistan through provision of unconventional energy resources. Our goal is to make a long lasting contribution towards the generation of cleaner and more efficient energy throughout Pakistan. In this endeavor the **PACIFIC ANCIENT ENERGY** is focused on creating an environment that benefits our clients, employs, business partners and all future generation, while placing equal importance on continued value creation for company stake holders.

The company is registered with Alternate Energy Development Board of Pakistan (AEDB). We are also registered with Securities and Exchange Commission of Pakistan and respective Chamber of Commerce and Industry.

The company is designed to carry on business profession particular of importing, exporting and there after locally manufacturing and installation of alternate energy sources, such as windmills, solar systems and hydro water generation plants. We are committed to the design development and distributions of complete high quality and affordable renewable energy solutions. We deliver proving solar performs to residential, commercial, and utility-scale power plant customers. Our high-efficiency solar cell, panels and systems deliver significantly more energy per unit area than competing systems. Our customers benefit from lower electric bills, meaningful financial returns and maximum carbon emission (CO) savings. At the forefront of addressing tomorrow's energy needs today, we combines pioneering solar technology with nature's most abundant resource to deliver the cleanest, most affordable and energy efficient solutions for a green future.

As one of the prominent solar energy companies in Pakistan, **PACIFIC ANCIENT ENERGY** is passionately committed to delivering alternative energy choice through lasting partnerships in order to build a brighter sustainable future. We see a future where solar power is an essential component of the global energy mix. We work everyday to continuously set new standards for solar performance, value, appearance and our customer's satisfaction.

MANAGEMENT TEAM

CEO & Director (Muhammad Shoaib Bhatti)

Mr. Shoaib Bhatti is a French National of Pakistan Origin. Having worked in France for over fifteen years in the field of electricity and energy , He decided to work for his homeland and benefit it through the expertise gained by him.He has been involved in developing renewable energy projects within the hydro, wind, solar and solar/wind hybrid power generation sectors. Mr. Bhatti completed his graduate studies in Electro Technique Engineering from Melun France.

Director (Colonel ® Shams ul Haq Khan)

Colonel Shams has to his credit 30 years experience as a telecom engineer and showed in the Technical Arm of Pakistan Army Corps of Signals. An expert in system engineering, solution provision and trouble shooting. Has a flair for alternate energy project management and related issues. He has rich administrative experience as well qualified and holds Master and Post Graduate Degrees.

Director (Farukh Shoaib)

Mr. Farukh Shoaib has a seif-motivated attitude and is focused on delivering results with extensive experience in developing and executing integrated campaigns including digital solutions and social media. He has ability to work collaboratively with multiple stakeholders ton develop and deliver marketing plans and campaigns. He is able to articulate technical solutions for customer problems.

Management Team

Our management team has significant experience in renewable energy project development environmental impact assessment and mitigation , social enterprise project development , private equity and transatlantic executive positions in high-growth companies. One of our team's key assets is our ability to combine extensive experience in project development in the clean tech sphere with a deep understanding of the Pakistan's challenges. The team members, individually and collectively, have an excellent reputation as skilled and ethical professionals.

Technical Team

We have a dedicated and professionally competent team of Engineers and Technician capable of initiating and completing alternate energy projects. Wholesome after sale and back up support is ensured by our technical team.

PACIFIC ANCIENT ENERGY was established in 2007 to focus on Renewable Energy Project Development and energy efficiency as well as basic rural energy services.

As a clean energy developer, we strongly believe that it is in our interest to create long term value for all stakeholders involved in our projects. To achieve this, we closely work together with the communities in our project areas as well as policy makers, investors and international development banks to ensure that all social and environmental concerns are addressed in a comprehensive manner.

Our values are teamwork, loyalty, commitment, accountability, excellence, innovation, professionalism and respect. With our core competency power, reliability and sustainability, we are confident of providing the right solar solutions to support you in this fast changing environment. While our project portfolio continues to expand, our intention remains the same.

Our wish here at PACIFIC ANCIENT ENERGY is to act as a catalyst to build a more sustainable environment and create value for our clients, communities, partners, investors and other stakeholders alike.

I welcome you to explore our website to learn more about PACIFIC ANCIENT ENERGY, and would like to encourage you to contact us with any questions you may have.

Best regards,

Shoaib Bhatti
CEO

VISION & MISSION

- TO CREATE A CLEANER AND GREENER PAKISTAN
- TO BUILD A BRIGHTER SUSTAINABLE FUTURE
- TO PROVIDE COST EFFECTIVE RENEWABLE ENERGY
- TO MAKE A LONG LASTING CONTRIBUTION TOWARDS THE GENERATION OF CLEANER AND MORE EFFICIENT ENERGY THROUGHOUT PAKISTAN

There are a number of reasons why you should consider using the services of PACIFIC ANCIENT ENERGY to achieve your goals & objectives. The strengths of our distinctive approach include:

Flexibility

We tailor our products to meet your needs in terms of quality, time or budget. No job is too small or too big, no professional team is too broad or too narrow. We efficiently coordinate with you in a better way.

Integration

We package products to meet multi-disciplinary takes, drawing on the services of a wide and deep in-house expertise all the time. Neither the world is divided into little boxes and nor we think so. We think out of the box,

Professionalism

Respect for our customer's need and property-work with integrity, honesty and respect to deliver a great product to fulfill our customer's need. We pride ourselves in the positive impact we make on the environment.

Quality

We never compromise on quality. Hopefully we will provide the best quality goods and services to satisfy our clients.

Selection

We offer a vast array of products and services to ensure. We have the most energy efficient solar electric system to fit every customer need from commercial to the largest of utility solar farms. We provide our customers with a complete turnkey solution providing engineering, installation, financing and system maintenance solutions.

Customer service

We are dedicated to listening to our customers, understanding their desires and helping them accomplish their goal of energy independence.

PACIFIC ANCIENT ENERGY

OUR PROJECTS

WIND TURBINE AND SOLAR SOLUTIONS

PACIFIC ANCIENT ENERGY is mainly dedicated to solar power design, installation and after-service. With PACIFIC ANCIENT ENERGY powerful strength, we can supply our customer all-in-one service that including consultation, research and development, design, supplying goods, installation, supervision, operation, maintenance, etc.

Our solar power system integrated our PACIFIC's high-quality solar panels and the strategy cooperation with the world-class suppliers of high quality inverters, controllers and batteries etc. Providing the flexible, reliable and excellent solutions according to different consumers.

Remote Telecommunication sites require stand-alone power systems. Powering telecommunication equipment with diesel generators is problematic, to say the least. Solar powered systems are the most hassle-free solution. Remote solar power systems provide an ideal power solution for remote or off-grid locations. We engineer each system to withstand harsh weather conditions, provide highly reliable electricity with only sunlight as fuel, and to meet the unique requirements of our customer.

Installation of garden lights at Janat Bibi park Gujranwala.

27KW Solar project installed at Aitchian college Lahore.

18Kw Solar project installed at Jawed Hospital QDS Gujranwala.

Water Pumping Wind Turbine System at Balochistan.

OUR PROJECTS

10KW Solar Hybrid Telecommunication system at Chakwal.

Solar Pump project installed at Marraco..

Solar System installed at Petrol Pump in Pakistan.

86.4Kw Control Shed Grid Tie project at France.

12KW Residential Solar project at Sonex site Gujranwala.

Solar Car parking project at carrefour France.

16KW Solar System installed at QDS.

Solar Stand alone System installed at Rawalpindi.

8 KW Solar Hybrid System installed at Five Star Feed Bhutta Center.

15Kw solar hybrid system installed at Faiza Beauty Cream (Ponia's House)

Solar Grid tie system installed at France for agriculture..

WIND TURBINE AND SOLAR SOLUTIONS

CEO with President of Azad Kashmir chamber of commerce.

CEO Pacific Ancient Energy with Ambassador of France & European union.

CEO & Managing Director with C G of USA.

CEO explaining the solar system details to Lahore chamber of commerce.

Visit of CEO at Ghandhara Nissan Industry Karachi.

Provincial Minister of Energy Chudary Sher Ali is visiting the **PACIFIC ANCIENT ENERGY** stall of Second international three days EGO exhibition in Expo center Lahore.

CEO with President of Sialkot COCI.

Indonesia Ambassador

CEO with Malaysian Ambassador.

Visit of CEO at S.I.T.E Industry Karachi.

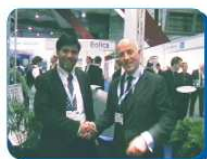

CEO with Japan Ambassador.

CEO with SMEDA Delegation.

Director with F M O C Ch. Imtiaz Safdar Warraich.

CEO with Mr. Dutry President of Turbowiuds.

CEO with CEEG Sales Team.

CEO with Yingli solar CEO.

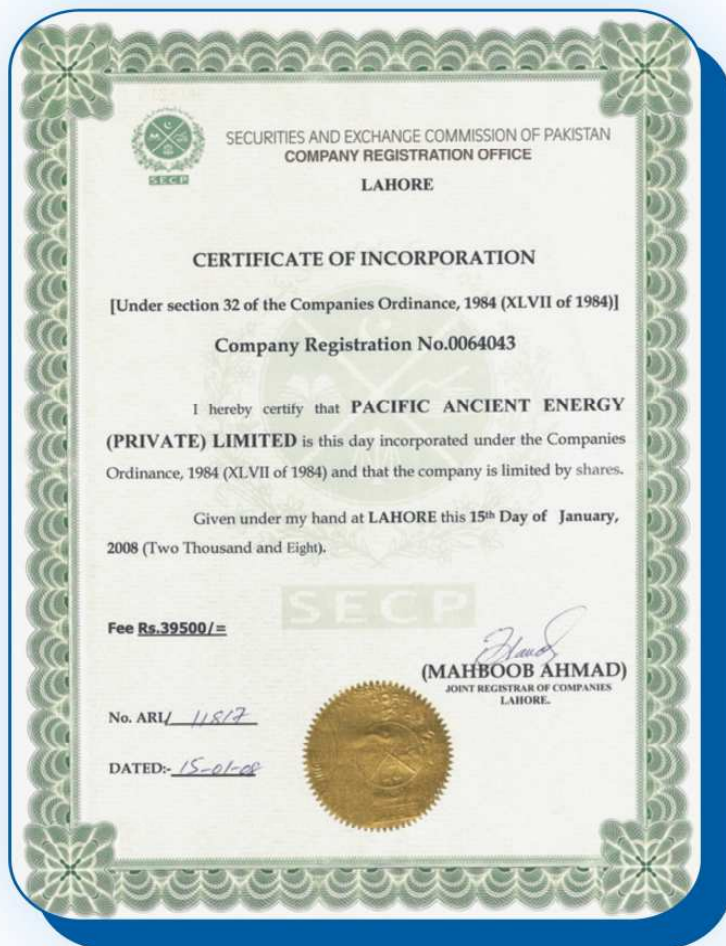

CEO with President of Pakistan Fan Delegation.

Our stall at 2nd International EGO Exhibition E C Lahore.
